ARTICLE 2. SCOPE AND DURATION OF CONTRACT.

2.1. This Areawide Contract shall be in effect upon the date of execution and shall continue for a period of ten (10) years unless earlier terminated in accordance with this Section 2.1; provided, however, that the agencies of the Government may only use this Areawide Contract to obtain services from the Contractor in accordance with this Areawide Contract, the Contractor's Tariffs and the provisions of the Energy Policy Act of 1992 (10 U.S.C 2865 and 42 U.S.C. 8256) on and after the date of execution. The Government, pursuant to the clause contained in FAR 52.249-2 (48 C.F.R. 52.249-2), incorporated into this Areawide Contract under Article 14.1-25, or the Contractor, upon 60 days written notice to the Government, may terminate this Areawide Contract, in whole or in part, when it is in their respective interest to do so, provided, however, that neither the stated duration of this Areawide Contract nor any other termination of it, in whole or in part, pursuant to this Article 2.1, or otherwise shall be construed to affect any obligation for any payment, charge, rate, or other matter that may be imposed pursuant to the Contractor's Tariffs and/or other Terms and Conditions mutually agreed upon by the Ordering Agency and Contractor in an Individual Authorization.

2.2. Authorizations may be executed under this Areawide Contract at any time during the term of the contract, up to and including the last effective date. Authorizations may be executed for a term extending beyond the term of this Areawide Contract provided that it is within the contracting authority of the Ordering Agency.

2.3. Expiration or termination of this contract shall not cause the termination of an individual Authorization(s) issued under this Areawide Contract. Such Authorizations shall remain in effect for their designated term and shall incorporate the terms and conditions of this Areawide Contract.

2.4 The provisions of this Areawide Contract shall not apply to the Contractor's service to any Agency until both the Ordering Agency and the Contractor execute a written Authorization for Electric Service, which is consistent with Contractor's Tariffs. Upon bilateral execution of an Authorization, the Contractor agrees to furnish to the Ordering Agency, and the Ordering Agency agrees to purchase from the Contractor, the above noted services for the installation(s) or facilities named in the Authorization pursuant to the terms of this Areawide Contract and Contractor's Tariffs.

2.5. Nothing in this Areawide Contract shall be construed as precluding the Ordering Agency and the Contractor from entering into an Authorization for negotiated rates based upon load shedding capability, existence of curtable load, unique energy usage patterns or service of a special nature, provided such negotiated rates or service are in accordance with the rules and regulations of the Commission for the particular service.

ARTICLE 3. EXISTING CONTRACTS.

3.1. The parties agree that an Agency currently acquiring service from the Contractor under a separate written contract may continue to do so until that contract expires or until such time as the Agency and the Contractor mutually agree to terminate that separate written contract and have such service provided pursuant to this Areawide Contract by executing an appropriate Authorization or Authorizations. However, all new acquisitions or changes of service shall be procured using the Exhibit Authorizations provided with this Areawide Contract GS-00P-06-BSD-0445, in accordance with Article 1.1 (d) above.

3.2. Existing special rates and services of a special nature currently provided under a separate written contract may be continued under the Authorizations described in Article 3.1 if requested by the Ordering Agency and agreed upon by the Contractor.

ARTICLE 4. AUTHORIZATION PROCEDURE AND SERVICE DISCONNECTION.

4.1. To obtain or change service under this Areawide Contract, the Ordering Agency shall complete the appropriate Authorization and forward it to the Contractor. Upon the request of the Ordering Agency and provided that the Ordering Agency does not have any balance due and owing the Contractor for any service(s) and consistent with the applicable Commission billing practice rules, the Contractor shall endeavor to provide reasonable assistance to the Ordering Agency in selecting the Service Classification which may be most favorable to the Ordering Agency. Upon execution of an Authorization by both the Contractor and the Ordering Agency, the date of initiation or change in service shall be effective as of the date specified in the Authorization. An executed copy of the Authorization (cover page only) shall be transmitted by the Ordering Agency to GSA at the address provided in Article 16.1.

4.2. During the term of this Areawide Contract, effective Authorizations need not be amended, modified, or changed by an Ordering Agency to reflect changes in: accounting and appropriation data, the Contractor's Tariffs, the Contractor's cost of purchased fuel, or the estimated annual cost of service. Such changes are considered internal to the party involved. Where changes are required in effective Authorizations because of a change in the service requirements of an Ordering Agency, an amended Authorization shall be mutually agreed upon and executed.

4.3. An Ordering Agency or the Contractor may discontinue service provided pursuant to this Areawide Contract to a particular Federal facility or installation by delivering a written Termination Authorization to the other. Such discontinuance of service by an Ordering Agency or the Contractor shall be in accordance with the terms of this Areawide Contract, the Contractor's Tariffs, and the applicable Commission billing practice rules.

4.4 Within the authorities of the Ordering Agency, the term of any Individual Authorization is independent of the expiration date of this Areawide Contract and the conditions and articles of this Areawide Contract shall apply throughout the term of any Authorization placed against it in accordance with Article 18.4 herein.

ARTICLE 5. RATES, CHARGES, AND PUBLIC REGULATION.

5.1 A complete listing of all Contractor's Tariffs is available to the Government and any Ordering Agency electronically at the Contractor's website accessible via <http://www.dteenergy.com>.

5.2. Subject to the provisions of Article 2.4, all Electric Service purchases under this Areawide Contract, as well as any other action under this Areawide Contract shall be in accordance with, and subject to, the Contractor's Tariffs and the applicable Commission billing practice rules, except to the extent that same are preempted by Federal law. Throughout the term of this Areawide Contract, the Government shall have full access to the Contractor's currently effective Tariffs. In the event the Contractor's Tariffs become inaccessible via the internet or the Ordering Agency does not have access to the internet, the Contractor agrees to provide newly effective or amended Tariffs in accordance with the Contractor's Tariff distribution practices, policies and procedures applicable to all customers.

5.3. If, during the term of this Areawide Contract, the Commission approves a change in rates for services specified in Authorizations in effect hereunder, the Contractor agrees to continue to furnish, and the Ordering Agency agrees to continue to pay for, those services at the newly approved rates from and after the date such rates are made effective. As provided in Article 4.2, modification of any Authorization hereunder is not necessary to implement higher or lower rates.

5.4. The Contractor hereby represents and warrants to the Government that the service rates available to any Ordering Agencies hereunder shall at all times not exceed those available to any other customer served under the same Service Classification for the same or comparable service, under like conditions of use. Nothing herein shall require the Contractor to apply service rates that are inapplicable to the Ordering Agency.

5.5. Reasonable written notice via an Authorization shall be given by the Ordering Agency to the Contractor, at the address provided in Article 16.2, of any material changes proposed in the volume or characteristic of utility services required by the Ordering Agency.

5.6. To the extent required by the Contractor's Tariffs, the Commission's rules and regulations, or the Contractor's policies and practices applicable to all customers, and in accordance therewith, any necessary extension, alteration, relocation, or reinforcement of the Contractor's transmission or distribution lines, related special facilities, service arrangements, energy audit services, or other services required or requested by an Ordering Agency shall be provided and, as applicable, billed for, by the Contractor to the extent such services do not adversely impact other customers of the Contractor. To the extent available from the Contractor, the Contractor shall provide and, as applicable, bill for such technical assistance on or concerning an Ordering Agency's equipment (such as the inspection or repair of such equipment) as may be requested by such Ordering Agency. The charges for such technical assistance shall be calculated at the time the technical assistance is rendered, as mutually agreed upon by the Contractor and the Agency and shall comply with Contractor's Tariffs. The Authorization or any other agreement used to obtain and provide the matters, services, or technical assistance described in this Article 5.6 shall contain information descriptive of the matters, services, or technical assistance required or requested, including the amount of (or method to determine) any payment to be made by the Ordering Agency to the Contractor for the provision of said matters, services, or technical assistance.

5.7. The requirements of the Disputes clause at FAR 52.233-1 are supplemented to provide that matters involving the interpretation of Contractor's Tariffs are subject to the jurisdiction and regulation of the utility rate commission having jurisdiction.

ARTICLE 6. BILLS AND BILLING DATA.

6.1 The Electric Service supplied hereunder shall be billed to the Ordering Agency at the address specified in each Authorization. Bills shall be submitted in original only, unless otherwise specified in the Authorization. All bills shall contain such data as is required by the Commission to substantiate the billing, and such other reasonable and available data as may be requested by the Ordering Agency, provided that such other data are contained in bills provided to other customers of the Contractor served under the same Service Classification as the Ordering Agency.

ARTICLE 7. PAYMENTS FOR SERVICES.

7.1. Payments hereunder shall not normally be paid in advance of services rendered in accordance with 48 C.F.R. Subpart 32.4 unless required by the Contractor's Tariff. The Ordering Agency shall effect payment of all bills for regulated services rendered under this Contract in accordance with the terms of the Contractor's Tariff. Changes in the Contractor's Tariff provisions for the payment of bills shall supersede the provisions of this paragraph.

7.2. Each payment made by Treasury check to the Contractor shall include the Contractor's billing stub(s), or a Government or Ordering Agency payment document, that clearly and correctly lists all of the Contractor's account numbers to which the payment applies and the dollar amount applicable to each account. If payment is by Electronic Funds Transfer either through the Automated Clearing House (ACH) or the Federal Reserve Wire Transfer System, the provisions of FAR Subpart 52.232-34 shall apply (See Article 14). The Ordering Agency will make invoice payments for services not subject to the direct regulation of the Commission in accordance with the provisions of the FAR Subpart 52.232-25 (Article 14.1-16). The interest rate for late payments made pursuant to this clause shall be computed in accordance with the Office of Management and Budget prompt payment regulations at 5 C.F.R. 1315.

ARTICLE 8. CONTRACTOR-OWNED METERS.

8.1. Metering equipment of standard manufacture suitable to measure all utility services supplied by the Contractor hereunder shall be furnished, installed, calibrated and maintained by the Contractor at its expense. In the event any meter fails to register or registers incorrectly, as determined by the regulations of the Commission, billing adjustments shall be made in accordance with such regulations and Contractor's Tariffs.

8.2. The Contractor, so far as possible, shall read all meters monthly in accordance with the Contractor's Tariff and the Commission's regulations.

8.3. Meters shall be inspected upon installation at no direct charge to the Ordering Agency. Subsequent inspection, periodic testing, repair, and replacement of meters shall be done in such place and manner as provided by the Commission's regulations. Upon notice that a meter is failing to register correctly, the Contractor shall take immediate steps to effect replacement or repair. Ordering Agencies shall have the right to request a meter test in accordance with the procedures prescribed in the Commission's regulations and Contractor's Tariffs. The tests and applicable meter accuracy standards are those set forth in the Commission's regulations. The expense of meter tests shall be borne by the party designated as responsible therefor in the Commission's regulations.

ARTICLE 9. EQUIPMENT AND FACILITIES.

9.1. Subject to the provisions of Article 5.6 hereof, the responsibility for owning, furnishing, installing, and maintaining all equipment and facilities (other than meters) required to supply service at the delivery point(s) specified in an Authorization shall be determined in accordance with the Contractor's Tariffs, Contractor's policies and practices, and the Commission's rules and regulations. The Ordering Agency shall provide, free of charge to the Contractor, mutually agreeable locations on its premises for the installation of meters and such other equipment furnished and owned by the Contractor and necessary to supply service hereunder. The Contractor shall, at all times during the life of this Areawide Contract, operate and maintain at its expense such equipment or facilities as for which it has responsibility in accordance with this Article 9.1, and shall assume all taxes and other charges in connection therewith. Notwithstanding anything to the contrary in FAR 52.241-5 (Contractor's Facilities (FEB 1995)), to the extent required by the Contractor's Tariffs, and in accordance thereof, such equipment and facilities as for which the Contractor has responsibility in accordance with this Article 9.1 shall be removed, or if there is any underground equipment or facilities for which the Contractor has responsibility in accordance with this Article 9.1, such underground equipment or facilities may be abandoned, and in both cases, the Agency's premises restored, by the Contractor at its expense, within a reasonable time after discontinuance of service to the Ordering Agency.

9.2. All necessary rights-of-way, easements and such other rights necessary to permit the Contractor to perform under this contract shall be obtained and the expense for same borne in accordance with the Contractor's Tariffs and the Commission's rules and regulations.

ARTICLE 10. LIABILITY.

10.1. When the Government and/or an Ordering Agency has limited or restricted the Contractor's right of access under Article 11 and thereby interfered with the Contractor's ability to supply service or to correct dangerous situations which are a threat to public safety, the Government shall be responsible for any liability resulting from such restricted or limited access to the extent permitted by law and authorized by appropriations. This Article (10.1) shall not be construed to limit the Government's liability under applicable law.

10.2. The Contractor's liability to the Government and to any Ordering Agency for any failure to supply service, for any interruptions in service, and for any irregular or defective service shall be determined in accordance with the Contractor's Tariffs.

10.3. Except as provided above, and in accordance with the Contractor's Tariff and Terms and Conditions of Service, the Government shall not be liable for any damage or injury to any person or property, including death, occasioned solely by the Contractor's, its employees' or agents' negligent installation, use, operation or intentional misuse of the Contractor's equipment or facilities.

10.4. In accordance with the Contractor's Tariff and/or Terms and Conditions of Service, neither the Contractor nor its employees or agents, shall be liable for damage or injury to any person or property, including death, occasioned solely by the negligent installation, use, operation or intentional misuse of Contractor's equipment or facilities by the Government, its employees or agents.

10.5. The Contractor shall not be liable for incidents arising out of or in any way connected with the violation or compliance with any local, state or federal environmental law or regulation resulting from pre-existing conditions at a Government job site, release or spill of any pre-existing hazardous materials or waste, or out of the management and disposal of any pre-existing contaminated soils or ground water, hazardous or non-hazardous, removed from the ground as a result of work performed by the Contractor.

10.6. The Government agrees to accept full responsibility for and bear all costs associated with pre-existing environmental liability. Responsibility for testing, abatement, remediation, and/or disposal of hazardous material, including, but not limited to, contaminated soil, lead paint, asbestos, fuel oil, or underground fuel oil tanks, shall remain with the Government. Where there is reason to suspect that hazardous material is present at the work site, or where hazardous material is encountered during the course of work being performed, the Contractor shall stop work; notify the Contracting Officer and Activity personnel, and request that the Government test the work site for such hazardous material and appropriately abate and dispose of such hazardous material. Once the work site has been cleared of all hazardous material, the Contractor shall resume work in that area.

ARTICLE 11. ACCESS TO PREMISES.

11.1. The Contractor shall have access to the premises served at all reasonable times during the term of this Areawide Contract and at its expiration or termination for the purpose of reading meters, making installations, repairs, or removals of the Contractor's equipment, or for any other proper purposes hereunder; provided, however, that proper military or other governmental authority may limit or restrict such right of access in any manner considered by such authority to be reasonably necessary or advisable.

ARTICLE 12. PARTIES OF INTEREST.

12.1. This Areawide Contract shall be binding upon and inure to the benefit of the successors, legal representatives, and assignees of the respective parties hereto.

12.2. In the event the Contractor becomes aware that a change in ownership has occurred, or is certain to occur, the Contractor shall notify the Contracting Officer at the address provided in Article 16.1 within thirty (30) days of such ownership change. In the event the Contractor fails to make the notification required by this Article 12.2, the Government cannot guarantee the payment of outstanding invoices in accordance with the provisions of Article 7.1.

ARTICLE 13. REPRESENTATIONS AND CERTIFICATIONS.

13.1. This Areawide Contract incorporates by reference the representations and certifications made by the Contractor on Form PBS 3503 which is on file with the Government.
